STORYBOARD KICKOFF.COM

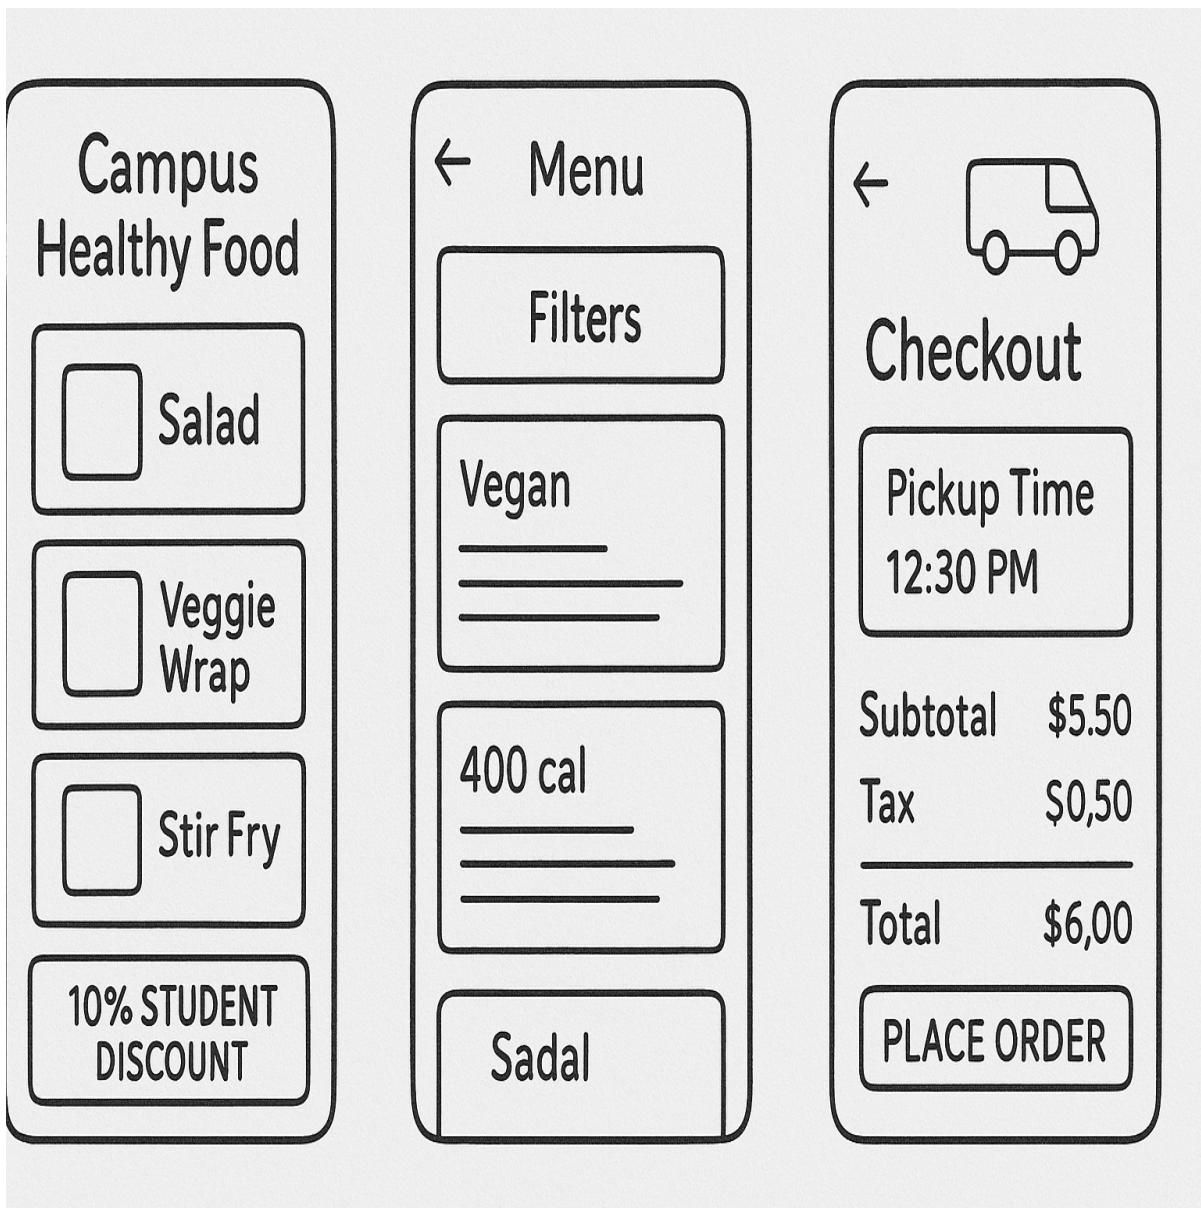

This storyboard illustrates how a student uses the Campus Healthy Food app — browsing daily meal options, selecting filters for healthy choices, and picking up their order on campus.

Wireframes — Feature Screens

These wireframes display the app's main features: menu browsing, detailed meal views, order summary, and saved favorites. Each screen provides clear navigation for quick food selection.

Main Flow — Core App Design

The final set of sketches shows the overall flow of the Campus Healthy Food app, from viewing available meals to filtering healthy options and completing the checkout process.
